

Financial Services Appropriations Requests

The following requests are Idaho-related projects supported and sponsored by Senators Crapo and Risch:

Item Name: Greenhouse Green Technology Incubator

Amount Requested: \$256,150

Recipient: City of Boise

Location of work: Boise, ID

Public Interest: To support a green energy business incubator in Idaho

Project Description: The City of Boise will develop a Green Energy Business Incubator to create new businesses and green energy jobs in the Boise area, offering office space and providing accounting, legal, and human resource services.

Item Name: Proof of Concept Center

Amount Requested: \$1,200,000

Recipient: Idaho TechConnect Inc.

Location of work: Nampa, ID

Public Interest: To support a proof-of-concept center benefitting small business development in Idaho

Project Description: The Proof of Concept Center works with new and existing businesses, Idaho's colleges and universities, and the Idaho national laboratory to move concepts into commercial products, goods and services. The products and services can be used to start new businesses or licensed to existing businesses, so that they can grow jobs and provide valuable export goods and regional productivity.

Item Name: Research, Economic Development, and Entrepreneurial Initiative Activities

Amount Requested: \$400,000

Recipient: Boise State University

Location of work: Boise, ID

Public Interest: To support research and economic development for small business opportunities in Idaho

Project Description: This project supports activities at Boise State University to match private and public sector dollars and in-kind contributions to conduct collaborative research that creates intellectual property, jobs, and ultimately leads to the benefit and growth of the Idaho business community.
